

Entrance Scholarships and Awards

Dear Student,

Academic achievement, a commitment to quality and a strong work ethic are characteristics we value at McKenzie College. Creative professionals understand that to succeed in your career will require a lifelong commitment to upgrading your skills and continual commitment to quality. The technical and creative fields need dedicated people who have demonstrated an ability to perform when challenged.

At McKenzie College we believe that dedication to excellence should be rewarded. All students entering directly from high school are eligible to be considered for an entrance scholarship of between \$500.00 and \$2000.00. To be considered, students must achieve an overall academic average of 75% or greater as calculated by our registrar's office.

Because artistic talent is sometimes difficult to qualify numerically, students applying for one of our creative digital media programs are encouraged to submit their artistic portfolios before March 15th to qualify for the McKenzie College artistic excellence entrance scholarship. This \$1000.00 entrance scholarship is presented to the student who demonstrates the most creative talent in their chosen artistic discipline as decided by our registrar's office.

McKenzie College has a respected history of training some of Atlantic Canada's finest technology and new media graduates. We want to continue this tradition by encouraging those students who have demonstrated a dedication to quality to enroll in one of our programs.

All entrance scholarships are subject to specific terms and conditions. Awards are made at the sole discretion of the McKenzie College registrar's office and all decisions are final. If you have any questions about McKenzie College, our programs, entrance scholarships or facilities please call us at (902) 562-8549 or e-mail registrar@mckenziecollege.com.
